

## COURSE OUTLINE

### DEVELOPER UPGRADE COURSE

**UPK v3.1/ODPN v9.1 to UPK v11.x**  
(Duration : 1 Day)

#### Course Objectives

---

This course is designed for course authors, editors and other individuals who have used User Productivity Kit (UPK), or OnDemand Personal Navigator (ODPN) and are upgrading from UPK v3.1 or ODPN v9.1 to v11. Delegates will learn the differences between the old and new versions and, through hands-on exercises, will experience how those differences will support their own content development processes.

#### Who Would Benefit

---

- Content Developers responsible for creating training courses, who have previously used UPK v3.1/ODPN v9.1.
- Content Editors responsible for reviewing courses prior to deployment, who have experience of UPK v3.1/ODPN v9.1.
- Project Managers responsible for planning and implementing testing, training or support programmes involving UPK.
